## Negotiations In District 23 Off, 10,000 Plan Strike

### Miners Demanded the Jacksonville Agreement CONFERRED MONTH

By Associated Press.  
LOUISVILLE, Ky., Apr. 14.—Negotiations between officials of District Twenty-three, United Mine Workers and representatives of West Kentucky Coal Operators' Association over a new wage scale were broken off here today. Union officials said approximately ten thousand miners would not report for work tomorrow. The mine demanded the so-called Jacksonville agreement while operators held out for wage reduction.

By Associated Press.  
LOUISVILLE, Ky., Apr. 14.—Western Kentucky miners and operators before going into final conference here today expressed little hope of settlement of the wage dispute which has kept both sides busy for more than a month. E. W. Holt, general manager of the mines at McHenry, said operators were unable to meet the miners' demands and he saw no hope of settlement. Lonnie Jackson, president of District Twenty-three, said the conference probably would close today and indicated probably tomorrow would be the beginning of "striking activities."

## LANGLEY TRIAL IN KENTUCKY IS NEXT WEEK

### Federal Hearing Postponed Until April 28

### DELAY RESENTED

Attorney Urges Hurrying Up of Case—State Trial May Be Transferred to Callettsburg  
By Associated Press.  
WASHINGTON, Apr. 14.—The trial here of Representative John W. Langley of Kentucky on charges of conspiracy in connection with liquor withdrawals has been fixed tentatively today for April 28. Langley will be tried on similar charges this week in Kentucky.  
Hon. E. Davis, attorney for Langley, characterized the government action in delaying the trial as persecution. He said Langley was in Cincinnati today prepared ask transfer of his case to Callettsburg which is nearer his home. In event of the transfer, Davis said, the delay might throw the case over until May and for this reason he asked for an early trial here.

### MAN WANTED FOR HOUSE-BREAKING IS WIFE DESERTER

Melvin Johnson, wanted in Laurel county on charges of housebreaking and larceny was arrested by officers here yesterday on a warrant charging desertion of his wife. ## MISS RICHARDS GOES TO HARLAN

### Advertising Manager of Daily News Past Two Years Leaves for New Position

Miss Della Richards, advertising manager of the Daily News for the past two years left yesterday for Harlan where she has accepted a similar position on the Harlan American at an increase of salary. The Harlan American has three papers, at Harlan, Wallins Creek and Poor Fork and Miss Richards will write advertising for the three.  
Miss Richards came to Middlesboro in September, 1921, soon after she was graduated from the University of Missouri School of Journalism. She stayed here four months, then went to the advertising department of the Knoxville Sentinel. In March, 1922, she returned to the Daily News as advertising manager and had served efficiently in that position ever since.  
Miss Richards made a great number of friends, in both a business and a social way, during her stay in Middlesboro and it is with deep regret that they have seen her leave.

Associated Press  
LOUISVILLE, April 14.—Physicians attending Nello Porter, 20, high school student upon whom a gland operation was performed yesterday at his home near Shepherdsville, said today the boy who is in a hospital here would recover, even though one gland is missing. Porter said he was attacked by a stranger while he was alone in his house.

## 2 ARRESTED HERE AS COUNTERFEITERS

### Followers of Circus Taken, Accused of Raising Dollar Bills, to Tens

Operations of what is believed to be an organized band of counterfeiters were broken up here yesterday by the arrest of two men. It is reported that three others were arrested at Pineville.  
F. A. Steres and A. F. Almey were arrested here yesterday by police after they had been furnished descriptions of the men by E. L. Cooley, secret service agent, who had been trailing the band for several weeks. One of the men was arrested at the Cumberland hotel where they were stopping and another out on the street. They were kept in jail last night and taken to Pineville this morning by Mr. Cooley where they will appear before Judge J. G. Hollins of the federal charge of counterfeiting.  
The men are charged with raising one dollar bills to tens. This was accomplished, officers say, by erasing the "ones" on new dollar bills bearing an engraving of Washington and printing "tens" in the place. A number of bills raised in this manner are said to have been passed at Harlan, Wallins and Evans. The men, it seems, visited towns where the Cooper Bros. circus exhibited because of the crowds always present at such times.  
The officers here have reports that three others were captured at Pineville yesterday. They believe that the quintet composed of organized counterfeiters' band.

## VISITING DAYS IN PUBLIC SCHOOLS

### Parents and Patrons Will Inspect Children's Work During Next Two Weeks

Visiting days for the public schools are becoming very popular. The rooms are decorated with flowers and displays of the children's work to look their best, then special programs are prepared to please the parents and patrons who come for visiting day.  
Last Thursday the first visiting day was held, it being in Miss Minnie Foley's room with thirty or more visitors. Then Friday, the Junction School visiting day, sixty-five friends of the school were out to see what these children and their teachers were doing.  
Visiting days in other teachers' rooms in the future follow: Tuesday, Miss Isabel Saelwechter; Wednesday, Mrs. C. A. Lanthier, Miss Margaret Jamison and Miss Rosetta Wood; Thursday, Miss Winnie Pippin, Mrs. Ed Hoe, Miss Lela Wilson and Miss Cornelia Arent; Friday, Miss Tillie Dalton, Miss Welber, Miss Lovelace and Miss Stella Cross; Monday, April 21, Mrs. H. ## ARTHUR GLOSTER WINS 410 YARD DASH IN TRACK MEET

Arthur Gloster, son of Mr. and Mrs. A. B. Gloster of this city, received special mention on yesterday's Knoxville sport pages because of the fact that he won the 440 yard dash for his school, University of Tennessee, in the track meet Saturday with Maryville College. Gloster's time was fifty-five and three-fifths. The University of Tennessee defeated Maryville in the meet, 77 to 54.

## COAL INDUSTRY IN KENTUCKY GAINS IN 1923

### In Year 43,112,119 Tons Produced—2.85 More Than In 1922

### 61,331 EMPLOYED

Bel County Produces 2,276,098 Tons With 1,160 Men—Harlan Produces 8,100,877 Tons  
Statistics of coal mining in Kentucky in 1923 compilation of which has just been completed, furnish some very interesting facts. There were 43,112,119 tons of coal produced in the state last year, an increase of 2.85 per cent over last year. There were 61,321 men employed in the industry during the year, an increase of 4.1 per cent over 1922. There are 771 mines in the state and 683 of them were worked in 1923, 22 less than in 1922. Four hundred and nine of these mines are electric. During the year there were 137 fatal accidents in the state, fifteen more than in the year before.  
Statistics for District No. 4, composed of Whitley, Knox and Bell counties, of which R. D. Collett of Pineville is inspector, follow: Whitley county, 480,272 tons of coal mined, 1429 men employed, average of 80 days worked; Knox county, 576,923 tons of coal produced, 1130 men employed and 96 days averaged; Bell county, 2,276,098 tons of coal, 1460 men employed and 109 days averaged. The total for the district was 635,749 tons more than in 1922.  
District No. 5, composed only of Harlan county, was C. S. Williams of Wallins Creek as inspector and makes the following report: Coal mined, 8,100,877 tons, or 1,900,441 tons more than was mined in the county in 1922. Nine thousand six hundred and one men were worked and the average days worked was 132.

## State's Chief Executive To Take First Hand Look

### JEWELRY VENDOR HELD BY POLICE

### Clever Visitor Gets Victims' Money By Promise to Buy Goods Back

Holding that A. P. Cox had been operating a scheme to defraud, Judge C. A. Woods bound the defendant over to the grand jury under a \$1,000 bond in the police court this morning. Cox who was charged with obtaining money on false pretense sold a number of razors and watches to people here Saturday in a manner that was said to be fraudulent.  
On account of the large number of persons present at the preliminary hearing it was necessary to hold it in the circuit court room. Only a few of the purchasers of the cheap jewelry testified.  
I. M. Slusher, a barber who invested \$17.50 in razors and watches, stated that he tried to shave with one of the razors and that it would not cut. He claimed it was not worth a dime. Another witness invested \$21.50 and another \$12.50. All claimed that Cox distributed a number of rings at twenty-five cents each and later returned the money and also allowed the purchaser to keep the ring.

## STATE'S GREATEST NEED TEACHERS

### Kentucky Colleges Seek to Supply Competent Instructor for Every School

Associated Press  
LEXINGTON, April 14.—The greatest educational need of Kentucky today, according to Dr. William S. Taylor, dean of the College of Education, is a competent qualified teacher for every school. The university, the state normal schools and the colleges of Kentucky are working earnestly to help to meet this need.  
During 1923, the University of Kentucky sent 215 teachers into the public schools of Kentucky and sent three teachers into the schools of neighboring states. These young men and young women have the academic and professional training that enables them to render a genuine service to education.  
The intermediate certificate is issued to students who have completed sixty semester hours of work including twelve in education. This certificate is valid for either elementary or high school work.  
Students who have completed ninety semester hours of work, including eighteen in education, not less than three of which shall have been in practice, are entitled to consideration for the advance certificate. This certificate may be converted into a life certificate after three years of successful teaching experience.  
The life certificate, the highest form of teachers' license issued by the university, is issued to graduates of the college of education, who have completed the curriculum required for graduation.  
Of the certificates issued by the university in 1923, there were 64 elementary, 51 intermediate, 27 advanced and 25 life certificates. These do not include the certificates issued to the teachers of vocational subjects in the public schools. The teachers of agriculture and home economics were certificated by the department of public instruction at Frankfort. If you add this group to the above, the university sent more than 240 teachers into the public schools last year.

## Governor Fields Will Visit Scene Recent Trouble

### ALL QUIET TODAY

Liberty Mine Running, Number of Employees Increase Daily, Mine Officials Say  
By Associated Press.  
FRANKFORT, Apr. 14.—Governor Fields today announced he would leave tonight by way of Winchester for Pineville, seat of the mine war apparently in an endeavor to settle the labor difficulties and Straight Creek coal mines.

By Associated Press.  
PINEVILLE, Apr. 14.—Company D of Williamsburg and Company G of Barbourville, today moved out of Straight Creek where they had been guarding mines of the Liberty Coal and Coke company during the miners' war. This leaves one hundred and eighty guardsmen on duty from London, Covington and Frankfort.

Two companies of troops were withdrawn today from Straight Creek, scene of recent warfare between state troops and persons opposed to the operation of the Liberty Coal and Coke company mines. It was announced at the mine office this afternoon. The Williamsburg and Barbourville troops are leaving because it is thought that the military force will be sufficiently large without them.

"Everything is as quiet as a Sunday school here today," Max Baker, vice-president of the company announced this afternoon. He stated that firing on the troops by snipers in the mountains had ceased. More than a hundred troops are still guarding the place and all the machine guns are still ready for instant action.

Governor Fields will go to Pineville and then to Straight Creek, Bell county, seat of the Liberty Coal Company and striking miners, it was announced at Frankfort.

The announcement that the governor would go to Pineville for a first-hand look at the situation Saturday followed all-day efforts on his part to settle differences between the union and company representatives of the company who were in Frankfort in response to an investigation from the governor to talk over the matter with him. The date for his departure was not definitely fixed by Governor Fields, but he intimated it would be "early next week."

Mine officials have had no further word of the governor's intended visit, they announced today.

The Liberty mine is still running and the number of employees is being almost daily increased. A great deal of care is taken in selecting men for the work, many of the applicants being rejected.

The employees enjoyed a picture show at the camp "Y" yesterday, the monotony attending the days of toil in the hazardous place being sufficient excuse for giving the entertainment on Sunday.

## SON INTERVENES IN THAW CASE

### Proceeding to Test Sanity of Harry K. Thaw—Start Today in New York

By Associated Press.  
PHILADELPHIA, Apr. 14.—Russell William Thaw, claimed to be the thirteen-year-old son of Harry K. Thaw, was allowed to intervene through his guardian in Thaw's insanity proceedings begun in court here today. Thaw's entrance into the court room was impressive. Clad in black, his portly form and gray hair gave him the appearance of a well-to-do professional man. There was a marked dignity in his bearing. When one prospective juror under examination said without hearing evidence he would pronounce him sane, Thaw nodded vigorously.

"What do you think the sky is?" asked the P. D. "Don't be silly," said Mr. Mann. "I'm not. You think it's a place for the stars to live in and rain to come from. Well, it is. But you'd better off if you took to sky-gazing once in a while. So would other people."

"Looking up at the sky suggests lifting your head erect, and it necessitates sticking your chest out. And there's where the value is. Most people don't know why we

## Hints From a Housewife's Kitchen Diary

## From Soup to Dessert

### SPINACH LOAF

There is a tempting way to serve spinach and ham together. The spinach must be washed, drained and cooked until tender in an enameled ware saucepan, so that it is not discolored. Drain it thoroughly and chop it very fine. Each pint of cooked spinach requires two tablespoonfuls of butter, yolk of one egg, a teaspoonful of salt, and a sprinkling of pepper. Next arrange the spinach in an enameled ware baking dish with alternate layers of finely chopped ham, the top layer being spinach. Scatter grated cheese and bread crumbs over the top and brown in a hot oven. It is served in the same dish in which it is cooked and garnished with a slice of pimento.

### CHOCOLATE COVERED FIGS

This toothsome and wholesome confection comes from New Orleans, and is especially to be recommended for children, because it satisfies the craving for sweets with a food that is digestible, nutritious and has a tonic effect on the system.

The figs should first be steamed until they are very tender. This may be done conveniently in an enameled ware steamer with a removable rack. When the figs have cooled remove the soft centers and chop this portion fine with a few nuts and candied fruits. Fill the figs with this mixture and dip them in unsweetened chocolate which has been melted in an enameled ware double boiler. The chocolate coating will keep the figs soft and moist for a considerable time.

### FRENCH ONION SOUP

Winter is the season for thick soups, and this one which, with a liberal chunk of bread, makes a whole meal for the French peasant, is especially good. Peel four large onions and two carrots. The onions should be chopped fine, and the carrots sliced. Put them into an enameled ware saucepan with three tablespoonfuls of butter and saute them until the onions are well browned. Use a quarter teaspoonful of sugar and half a teaspoonful of salt. Add a quart of water and boil for two hours, adding more water as it boils away. This soup should be served with a slice of bread in each plate.

## Relics at Carnegie Library Make an Interesting Display

Exhibits of relics and curios are now being arranged in the showcase at the Carnegie library. Persons having some rare article of unusual interest are requested to lend it to the library for the exhibition. Names of such persons will be posted with the exhibit with a brief description of the object, if the latter is necessary. Articles thus loaned to the library may be reclaimed at any time. The showcase will remain locked at all times to insure their against theft or loss.

The top shelf of the case has already been filled with curios loaned by J. W. Carter. Among these are Indian relics, geological formations of prehistoric age, interesting petrified objects and a number of choice articles from his large and varied collection.

Some objects, donated from other sources, have been placed on the second shelf, and many others are expected as the people of the vicinity bring in articles of historic value or other quaint mementoes.

DI'PHOS, Wis., Apr. — Abrah-  
ham Lincoln grew his beard to grat-  
ify a little girl's childish whim.  
And, regardless of what some folk  
say, it didn't begin to blow some forth  
until 1860.

Just when the great Emancipator started wearing whiskers has been a controversial subject. But a brief note, in his own handwriting, ought to settle the matter for all time.

The letter, browned with age, still is in the possession of the "little girl," now a white haired woman of 75. She is Mrs. Grace Billings living here.

During Lincoln's presidential campaign, Mrs. Billings, then plan Grace Bedell, lived at Westfield N.Y. She was just 11 then.

## A "Big" Bargain

The Woolworth Building, which is the world's tallest office building, has been sold at approximately \$20,000 per floor. The building, which is 22 stories high, is located in New York City. The sale was made by the Woolworth family, who have owned the building since it was built in 1903. The building is a landmark of New York City and is one of the most famous buildings in the world.

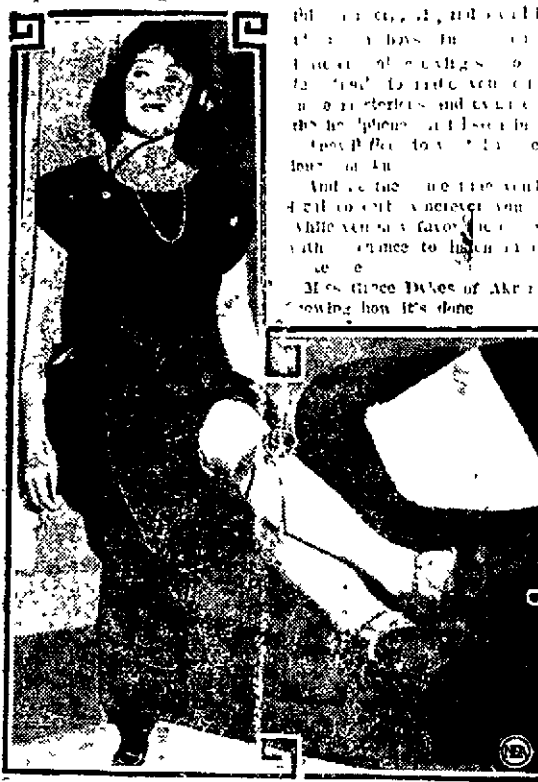

March 13, the Commission directed the State Highway commission to design a proper road to the East. Nearly \$100,000 will be spent in making the Eastern Dixie Highway payable by the State of Missouri. The road is turning from M. S. on to the East. Southbound traffic from Cincinnati should cross the river at Newport, then go by way of Alexandria, Grant, Lick, Butler, Greenwald, Ed mouth, Cynthia, and Paris to Lexington, excepting a few rough places. This road is in good condition to Lexington.

The Dixie road, south of Covington between Independence and the Paducah county line is under construction. There are several detours and a difficult ford to cross. For safety and certain going take the Alexandria route just described.

Rockcastle County—From the county line to Mt. Vernon, from Mt. Vernon to Lexington keep the main road which is in good condition, excepting the new earth grade one mile north of Lexington which is in poor condition so that it is passing with difficulty. From Lexington to Rockcastle it is in fair condition. The earth grade just south of Rockcastle River is in poor condition at present. Traffic goes through with care in dry weather. The waterbound macadam section coming this on the south is in excellent condition.

Whitley County—Main road from Corbin to Williamsburg is in excellent condition. From Williamsburg to Jellico, the graded earth road is passable in dry weather, but is going through with difficulty.

## REAL AMERICANS WANT RESTRICTION OF IMMIGRATION

A United Press. REAL AMERICANS, April 12 (United Press)—The American people are not to become mongrelized, according to a poll of 10,000 Americans taken by the United Press. The poll was conducted by the United Press and the results were as follows: 70 percent of the respondents said that they were in favor of restricting immigration. The poll was conducted by the United Press and the results were as follows: 70 percent of the respondents said that they were in favor of restricting immigration.

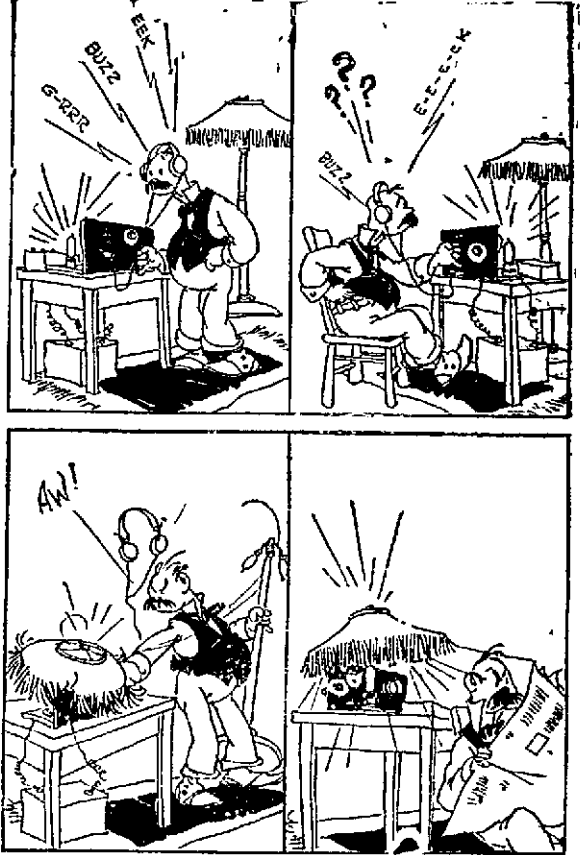

their kind, including the American people, whose membership knows no defeat in open warfare. If our form of government is to survive, Mr. Lewis wrote, "if our people are not to become mongrelized, then we must have men in Congress who will stand up for the heritage of the American Revolution and the principles of our Constitution. We must have men who will stand up for the principles of our Constitution and who will stand up for the principles of our Constitution."

## OBSERVE FOREST PROTECTION WEEK

All Governors Urged to Issue Forest Fire Proclamations. WASHINGTON, April 12 (United Press)—The United States Forest Service today urged all governors to issue proclamations designating April 12-20 as Forest Protection Week. The proclamations should urge the public to observe the week by refraining from fires and by taking other measures to protect the forests. The Forest Service is responsible for the management of the national forests and is committed to the protection of these resources for the benefit of future generations.

Forest Protection Week is a time when the public is urged to take special care to protect the forests. This is done by refraining from fires and by taking other measures to protect the forests. The Forest Service is responsible for the management of the national forests and is committed to the protection of these resources for the benefit of future generations. The public is urged to observe the week by refraining from fires and by taking other measures to protect the forests.

# 'I'M NOT WORRIED,' IS BOAST OF D. L. DOHENY

This is the last chapter of D. L. Doheny's "How I Made My Millions," his own story of his life. Doheny's oil activities have been under the scrutiny of the Senate.

BY E. L. DOHENY  
Oil—scandal or no oil—could I'm not going to waste my time worrying. For I have too much to keep the happy—and I am not writing of money.

I have my wife, my son and my grandchildren—there are four of them now, and each is prettier than the other.

My son is in business with me, and he has foresight. Three years before we got into the war, he hunched that we would be dragged into it. So he organized a battalion of California Naval Militia, hired a drill hall, procured the use of two navy ships for training, and was all set when the war came. The whole battalion enlisted. My boy later worked himself up to the commission of a lieutenant, senior grade.

It's such a family that makes life worth living. The family—and my work with-out which there could be no happiness for me. I do not believe in retiring, and hope to die with my boots on—working.

It is the way of most real producers, I guess. I recall Bill Hope,

an old crony, with whom I teamed up at Linto Basin while I was prospecting alone back in '77. We went it together for two years—a lumpy time in the winds—part of the time we spent looking for the Adams Diggings, part of the time we prospected around the headwaters of Salt River.

There was a saying in those days that a man who was out of luck "has gone up Salt River." We went up the river—both literally and figuratively. For we were without food for six weeks, living on wild turkeys and sour corn meal, without salt. But eventually we got out of it all right. I went my way, and Bill went his. He later made a fortune, but lost it and died broke—after he went off on trips to Alaska and Guatemala.

So I am staying right on my job. My greatest sport is riding a good lively horse. That's real exhilaration. Brisk walking is good too. I like yachting. But it's inertia occasionally gets me.

And although I am 68, I don't yet feel old enough to play golf!

(The End).

## Southeast May Get New National Park

KNOXVILLE, Tenn., April 12.—The southeast wants a national park, and is likely to get it, too.

A commission appointed by the United States department of the interior is making a survey of the Great Smoky Mountains region.

This range lies on the line between Tennessee and North Carolina. It is the highest in North America, east of the Rockies. There are 10 peaks rising more than 6,000 feet.

Deers and other wild animals still abound. But all are being rapidly killed off. Only national protection can save them.

The Smokies derive their name from the blue haze which envelops them.

The Great Smoky Mountains which may soon be set aside as a national park.

## LOCALS

## Frankfort Plants 1000 Trees

As ordered Press

FRANKFORT, April 11.—One thousand trees, probably will be planted in the capital city during Garden Week which begins Easter Sunday. The department of agriculture made arrangements to obtain the trees from the state nursery for persons desiring trees for planting at ten cents each, which officials say, will barely cover the cost of shipping the trees from the Louisville nursery to Frankfort.

## Once A Month All the World Pays Its Bills

Business the world over operates on the monthly settlement plan. Instead of having to stop and settle up when each single transaction is made, it has been found much more expeditious, and much more satisfactory all round, to have one day of reckoning each month for everybody.

So the merchant who sends you a statement of your account on the first of the month is in turn receiving statements from all business concerns and individuals with whom he does business. Those he owes money to insist that he shall settle promptly.

If he did not pay his bills as they came due, he would presently find his business was not wanted unless he took his cash with him when he went to market and paid for his goods as he bought them.

And when he asks you to meet your bills promptly, the merchant you owe money to is not asking anything of you that is not required of him.

The merchant knows the value of credit. He makes sure of protecting it by meeting his obligations. Even if he has to go the bank to borrow he sees to it that his bills are paid on time. But he has every reason to expect that those who owe him are going to pay up and make it possible for him to go and do likewise.
